Telematics Specialist joins Round Solutions

To further strengthen Round Solutions positions as the Number One Wireless Solutions Supplier we are extremely delighted to announce that Mr. Olaf Schaefer has joined the Round Solutions team. Olaf has a Masters Degree in Transport Engineering – Telematics/ITS from the Technical University of Dresden, Germany. With his in-depth knowledge of wireless technology and software particularly in GSM, GPS, UMTS and WIFI, Olaf is very well equipped to support and guide the Round Solutions customer base. Olafs expertise together with his friendly customer oriented approach will ensure that Round Solutions customers are ahead of their competition.

Apart from providing technical support Olaf will oversee Round Solutions new and exciting product introductions, which are planned over the next 6 months.

Olaf is based at the Round Solutions headquarters outside of Frankfurt, Germany.
